**4WD's**

The **HitchMate®** Cargo Carrier has been designed and manufactured to insert into any motor vehicle with a **Class 4** towbar receiver and carry cargo up to **160kg**.

*Excessive loads or physically large items can be transported conveniently outside of your motor vehicle. Utilizing the **HitchMate®** Cargo Carrier results in more available interior room and eliminates the chance of odours, spills, stains, and messy clean-ups inside of your vehicle caused by messy or undesirable items.*

**Lifting on to a roof rack is eliminated along with reduced fuel consumption due to wind drag ...**

- Structural grade DuraGal steel • Solid stainless steel fittings
- Security strength aluminium bed • Fully powdercoated finish

- Fully compliant Australia wide\* • Secured by your towbar's hardened steel hitch pin
- Easily removable and storable • Weighs 15-18kgs • 160kg load capacity

\*When measured and fitted to Australia wide compliance regulations.

- Camping • Fishing • Minibikes
- Pushbikes • Work Loads
- Holiday Travel
- Landscaping
- Esky

The **HitchMate®** Motorbike Carrier has been developed to carry motorbikes and scooters behind all vehicles equipped with a **Class 4** towbar receiver.

**Insertion into the towbar ensures the secure and compliant connection.\***

- **HitchMate®** Motorbike Carriers are custom fitted and supplied with loading ramp, wheel channel guides and 316 Stainless tiedown eye hooks.
- All **HitchMate®** designs are registered with and protected by IP Australia to include numerous patents pending ensuring a product that is totally unique, extremely substantial, and something we are proud of and stand behind.
- All **HitchMate®** Cargo Carriers are domestically made with our entire range manufactured in Queensland by Australians utilizing all Australian sourced materials.

**Tell us what you would want to carry and we will make it - just for you!**

\*Compliant connection is assured when measured and installed by HitchMate R/L or by a HitchMate R/L authorized installer.
